

Clinically Shown to Reduce Redness Caused by UV-exposure (AMA Labs)

- **SIGNIFICANTLY REDUCES SUNBURN**
- **CONDITIONS AND MOISTURIZES YOUR SKIN**
- **ENHANCES A NATURAL TAN**
- **MINIMIZES PEELING**
- **GREASELESS, ABSORBS QUICKLY AND EASILY**
- **DOES NOT CLOG PORES**

Our most recent creation, **SOLaleur®**, is the key ingredient in all of our **Kukui Essential® AfterSun** products. It is clinically proven to effectively reduce erythema (redness) resulting from sunburns, radiation therapy treatments and other UV-related damage.

SOLaleur's unique composition utilizes the inherent healing qualities of a number of natural ingredients including:

Kukui Oil

A traditional Hawaiian treatment for burns and sun-related skin damage, this polyunsaturated oil is produced and refined locally in Kunia on the island of O'ahu by Oils of Aloha.

Macadamia Oil

A deterrent to the skin's aging process, macadamia oil is 80% monounsaturated and the best vegetable source of palmitoleic acid (generally found in youthful skin).

Antioxidant vitamin package

A proprietary mix that ensures the integrity and stability of SOLaleur®.

Oils of Aloha®

Recommended Use:

Use daily, before or immediately after UV exposure. For optimal sunburn protection use in combination with a sunscreen.

Hawaii's Natural Sunburn Treatment

Use after sun exposure to reduce the redness and discomfort of a sunburn, maintain a natural tan and minimize peeling.

Oils of Aloha® offers Kukui Essential® AfterSun products for every preference.

Testimonials

- While visiting Maui, I got very burnt on my chest. I bought the fragrance free lotion and I did not peel. My skin ended up with a very dark tan and smooth. I love your lotion. Tokeland,WA
- I had a severe sunburn and photo-allergy reaction to the sun when I visited Maui last April. One of the staff members of the hotel told me about the kukui tree and how the oil would be helpful for my sunburn and allergy. I bought a small bottle of the oil and within 24 hours I had relief and my skin looked great. I'm hooked. A very satisfied customer. Hillsboro, Oregon

We refer to the products as **KEA** for short.

KEA OIL is a proprietary blend of oils that assist in restoring sun damaged skin and enhances a natural tan, while minimizing peeling. It is also hypoallergenic.

Fragrance Free 4.23 fl oz KEAO

KEA CREAM is an excellent face cream, since it penetrates quickly soothing the skin. Also, ideal for facial scars or burns due to the special formulation, which reduces burns by 60% within 24 hours.

Refreshing Fragrance 1.7 fl oz KEAC

KEA LOTION is a great body lotion that moisturizes the skin. It soothes, revitalizes, and helps reduce the discomfort of sunburns and cancer related radiation burns.

*Refreshing Fragrance 3.4 fl oz KEALF
Fragrance Free 3.4 fl oz KEAL*

KEA CLEANSER is an ultra gentle cleanser for sensitive, sunburned skin. This non-abrasive formula safely removes sand, grit and impurities while moisturising tender facial tissue.

Refreshing Fragrance 4.23 fl oz KEACL

*Refreshing Fragrance is a blend of citrus and musk

Recent AMA Laboratories studies demonstrated the product's burn-relief effectiveness when applied:

- 15 minutes before or immediately after UV irradiation
- Between one and 24 hours after exposure

Because of the SOLaleur's natural origins and proven results, it has significant potential for aiding patients with cancer-related burns as well as integration into sun care products.

The following chart details SOLaleur's effectiveness when applied before and after sun exposure.
